Project Manager\Professional Environmental Engineer

As the Utilities Project Manager, I bring a wealth of experience to the role. I worked as an Environmental Engineer for Private Companies, where I was responsible for designing and implementing environmental remediation projects, conducting environmental assessments, and preparing regulatory compliance reports. I also have experience in water resource management and have worked on several water treatment and supply projects. As Utilities Project Manager, I utilize my background in environmental engineering and water resource management to oversee and coordinate utility projects that meet regulatory requirements and positively impact the community.

AREAS OF EXPERTISE

Management

- Attended and addressed any and all issues brought to light during safety meetings.
- Developed and directed laboratory procedures and record systems, implementing process changes to produce higher-quality water effluent.
- Developed, recommended, and implemented programs to ensure compliance with applicable local, state, and federal regulations, including documentation, reporting, permits, manifests, training, and policy development.
- Made recommendations for treatment plant expansions and improvements to upper management and regulatory agencies.
- Managed a staff of 50 - 80 full-time non-exempt employees in a poultry production line focusing on safety and maintaining quality standards and compliance with the U.S.D.A. regulation policies and procedures while ensuring operational soundness.
- Managed the environmental data management system (E.S.S.) for compliance and reporting.
- Mentored, motivated, recruited, and directed exempt and non-exempt staff for various wastewater treatment plants focusing on pollution prevention, safety, and compliance implementation.
- Oversaw and ensured wastewater treatment areas and stormwater programs met environmental standards.

Operations

- Aided company's engineers and Public Works employees during water treatment plants planning and construction.
- Assisted Laboratory Managers with all reporting and controls on Safety and Quality by enforcing and abiding by all regulations.
- Budgeted for sufficient funds to effectively operate and maintain the treatment facilities. Reduce wastewater treatment plant expenses by \$300K annually by upgrading the treatment facility.
- Completed reporting requirements to various company groups.
- Conducted safety meetings.
- Developed and implemented goals, objectives, Environmental and Safety policies, and priorities for assigned programs.
- Developed, inspected, and audited stormwater pollution prevention plans (S.W.P.P.P.).
- Increased productivity in a production line by 30%, selecting and motivating the right non-exempt employees.
- Negotiated higher discharge allowances with the local agency, reducing by 90% sludge production.
- Performed National Pollutant Discharge Elimination System (N.P.D.E.S.) permit audits and inspections.
- Piloted a successful wastewater treatment plant start-up, utilizing new chemical treatments and equipment to accomplish zero non-compliance with the local agency.
- Reduced product waste by 50% by implementing equipment improvement in the production lines.
- Reduced work-related accidents upon implementing "Own Your Work Area" programs and preventive maintenance.
- Responsible for collecting data and managing the day-to-day basis of remediation projects.
- Tracked and concluded all performed P.M.s for completion and accuracy.

PROFESSIONAL EXPERIENCE

City of Margate, Margate, FL Project Manager – Utilities , Margate, FL (2021 – Present)	2018 – Present
Engineer (Environmental & Engineering Services) , Margate, FL (2018 – 2021)	
Florida Department of Health – Broward County, Fort Lauderdale, FL Engineering Specialist III , Fort Lauderdale, FL (2017 – Present)	2017 – 2018
Engineering Specialist II , Fort Lauderdale, FL (2017 – 2017)	
Environmental Specialist I , Fort Lauderdale, FL (2017 – 2017)	
Lowe's, Boca Raton, FL Outdoor Lawns and Garden Seasonal Helper	2017 – 2017
NorthStar Demolition and Remediation, Boca Raton, FL Environmental Engineer	2016 – 2016
Cliff Berry, Inc., Miami, FL Deputy Plant Manager	2014 – 2014
Metalmecánica 1, Santa Cruz, Venezuela Owner / Vice President	2013 – Present
Sigma Builders, Aventura, FL General Contractor Assistance	2012 – 2014
A.L.C.O.A., Inc., Newburgh, IN Senior Environmental Engineer	2008 – 2011
Tyson Foods, Inc. Complex Environmental Manager , Robards, KY (2006 – 2008)	1999 – 2008
Complex Environmental Manager , Madison, NE (2005 – 2006)	
Wastewater Supervisor , Robards, KY (2001 – 2005)	
Wastewater Supervisor Trainee , Robards, KY (2000 – 2001)	
Production Supervisor , Robards, KY (2000 – 2000)	
Human Resource Assistant , Robards, KY (1999 – 2000)	

ACADEMIC CREDENTIALS

B.S. in Environmental Engineering Technology, Murray State University, Murray, KY
M.S. in Management of Technology, Murray State University, Murray, KY
